ATTN: Paul Baker

Dear Mr. Baker,

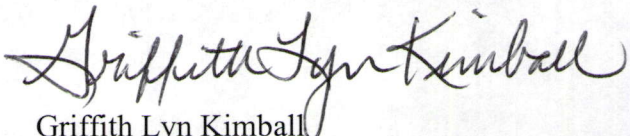

This letter is written to ask for a short continuation with respect to our obligation to conclude some reclamation work on our property in Grand County along the Dolores River.

In our letter of May 15th of this year we outlined what we would do and said that we would have this accomplished by the end of October 2001, weather permitting. Dale Snyder and Frank Snyder went to the site during the weekend of November 3rd and 4th and accomplished a portion of the obligation and were planning to return the next weekend. Unfortunately, Frank Snyder was critically injured in a crane/high-voltage power line accident on the morning of November 8th at Salt Lake Valley Sand and Gravel near Point-of-the-Mountain. MSHA has been investigating the accident.

At Dale Snyder's request, I called Wayne Hedberg and informed him of what had happened to Frank and suggested that a continuance would be very helpful to AMMI. He was very gracious and understanding. I asked if a letter of explanation and a formal request for a continuation would be acceptable. Mr. Hedberg said that would be appropriate. We will accomplish this as quickly as possible hoping that there is an understanding on your part of our mitigating circumstances. Weather now may be a problem until Spring. Frank is Dale's right-hand man as well as his brother and it will be difficult to replace Frank.

We appreciate your cooperation and understanding in this matter.

Sincerely,

Griffith Lyn Kimball
